

- Eureka College is providing a new wireless SSID called “ECEmployee” for employees at Eureka College to use on campus. This will replace the existing “EC-Employees” SSID currently used.
- The following slides are intended to provide guidance in connecting to the new SSID depending on user’s device type.
- You may need to configure your device to “Forget” the “ECGuest” or “EC-Employees” SSID first, and then add the new “ECEmployee” SSID.
- For any support or questions, please contact your Eureka IT Helpdesk as you do currently at:
 - Call/Text – 3137 MY ECIT (313-769-3248)
 - Email – helpdesk@eureka.edu
