# Social Science

The course in this area can be required for a particular major or minor in the Social Science and Business Division.

## **SSC 270 Statistics II**

**3 hours**

*Prerequisite: MAT 260. (Offered alternate years)*

Intermediate-level course that provides an overview of analysis of variance, multiple comparison procedures, multiple regression, and exploratory factor analysis, as they are utilized in the social sciences. Additional techniques in structural and multivariate analysis may be covered as dictated by available time and student preparation needs. (Cross-listed as PSY 270)

---

# Sociology

Sociology and anthropology study the many facets of human societies, cultures, and social behavior. Courses in this area will illuminate the attempts of social scientists to provide answers to persistent questions of social life. Students will learn how to better observe and conceptualize their social and cultural world. The sociology/psychology

major is recommended for students seeking a career in business organizations, government service, as pre-professional education for later careers in human services and social work, and as preparation for graduate work in sociology, psychology or law. The sociology minor is appropriate for students preparing for secondary teaching, business careers, or government service.

**Sociology Courses****SOC 102 Principles of Sociology****3 hours**

Introductory course designed to meet the needs of those wishing an elementary knowledge in this field as well as those preparing for advanced study. Emphasis is placed on the structure and dynamics of human society. Topics covered include culture, socialization, collective behavior, stratification, minority relations, population, deviance, and social institutions.

**SOC 105 Cultural Anthropology****3 hours**

Examination of how various cultures around the world have solved problems common to all societies. Particular emphasis is placed on the value of cultural concepts in illuminating similarities and dissimilarities. Cross-cultural examples of past and present societies are investigated.

**SOC 201W Criminology****3 hours**

Introduction to the nature and incidence of crime in America. Explanations of the causes of crime, as well as characteristics of victims and offenders, is reviewed. Prevention of and response to crime is explored and analyzed.

**SOC 210 Alcohol, Alcoholism, and Society****3 hours**

*Prerequisite: SOC 102 or consent of instructor. (Offered in alternate years)*

This course is intended to introduce the variety of areas involved in the study of alcoholic beverages and society. We will critically explore various ways of analyzing the issues that surround alcoholic beverages. Both historical and cross-cultural sources will be used in order to help us understand alcohol, alcoholism and society. The last half of the course will emphasize problems related to alcohol and the response of different parts of society to these problems.

**SOC 250W Social Stratification****4 hours**

*Prerequisite: SOC 102 or consent of the instructor.*

Examination of the American social structure with an analysis of its economic, social, and political dimensions. A theoretical and empirical evaluation of social inequality provides the essential focus.

**SOC 306W Minority Peoples in the United States** **3 hours**

*(Offered in alternate years) Prerequisite: SOC 102 or consent of the instructor.*

Socio-historical examination of dominant minority relations in the United States. The experience of various ethnic and racial groups is examined in depth.

**SOC 311W Deviance and Control** **3 hours**

*Prerequisite: SOC 102 or consent of the instructor. (Offered in alternate years)*

Discussion and evaluation of the major perspectives used in sociology to examine and explain individual and group deviation from the societal norms. Topics of investigation include functions of deviance, criminal behavior and control, alcoholism, mental illness, and primary and secondary deviance.

**SOC 370W Sociological Theory: Conceptualizing Society** **4 hours**

*Prerequisite: SOC 102 and Junior Standing. (Offered in alternate years)*

For over a century, sociologists have attempted to understand and explain society and human behavior. This course explores theories developed by several of the most influential sociologists as they attempt to provide answers to persistent questions of social life.
