

# Completing the Student Health Questionnaire and Immunizations Form

In order to register for classes at Eureka College, the Student Health Questionnaire and Immunization Sheet must be completed and in the possession of the Office of Student Programs and Services. A student cannot attend classes or participate in or practice for intercollegiate or intramural competition unless this record is on file in the Office of Student Programs and Services.

Because of Illinois State Department of Health requirements, it is important that these instructions be closely followed. Should it be necessary to provide further clarification, please attach additional information as necessary.

**Student Health Questionnaire:** To be completed and signed by the student. Please check all indicated medical conditions which the student has had or is currently experiencing.

**Immunizations:** To be completed by a physician (or health care professional licensed to provide immunization verification). The actual signature of the health care provider is required.

**Diphtheria, Pertussis, and Tetanus (DPT, DT, or Td vaccine):** The student must have received three doses, with the most recent dose within ten years of enrollment. Eureka College strongly prefers that the most recent dose be within six years of enrollment (Tetanus Toxoid vaccination does not meet this requirement).

**Measles (Rubella):** Students must have had two immunizations and must have been immunized on or after their first birthday with the LIVE measles virus vaccine. Month, day, and year must be documented to leave no doubt that the person was immunized on or after their first birthday (laboratory evidence of measles or a physician's signed confirmation of disease history is acceptable). Individuals vaccinated prior to 1968 must show proof that a LIVE virus vaccine, without gamma globulin, was administered.

**Rubella:** Students must have received the rubella vaccine on or after their first birthday. Laboratory confirmation is acceptable. A history of disease is not acceptable as proof of immunity.

**Mumps:** Students must have been immunized on or after their first birthday (physician confirmation is acceptable; laboratory confirmation is not acceptable).

**TB Skin Test:** Required of all international students. Test must be within six months prior to entrance into Eureka College.

**Important Note:** The actual signature of the health care provider is REQUIRED. A signature stamp is not acceptable for proof of immunization. The certificate of Child Health examination from the student's high school or Public Department of Health is acceptable for review by Eureka College. It is not necessary for students born before January 1, 1957 to demonstrate immunity.

**Athletic Physical Forms** are to be completed by a physician ONLY IF STUDENT IS PARTICIPATING IN ATHLETICS. The physician's signature is required.

A full examination of the student be completed by a physician.

Identify all allergies and all current medications.

In order to compete in any intercollegiate athletics, a physician must provide approval.
